

» **What is the difference between sequential and random order?**

- **Sequential order:**

This is the icon >		
1. If this icon is selected then the Next Lesson and Previous Lesson buttons in the lessons page will go in sequential order (1, 2, 3, and so on).		
2. Sequential order is for beginning users who want to go in order of how the program is initially intended.		

- **Random order:**

This is the icon >		
1. If this icon is selected, then the Next Lesson and Previous Lesson buttons in the lessons page will go in random order (for example: 3, 9, 1, 50, 22, and so on).		
2. Random order is for more experienced users who want to challenge themselves with random lessons.
