» **How to Disable the "Save Passwords" Option in Browser:**

o **Chrome:**
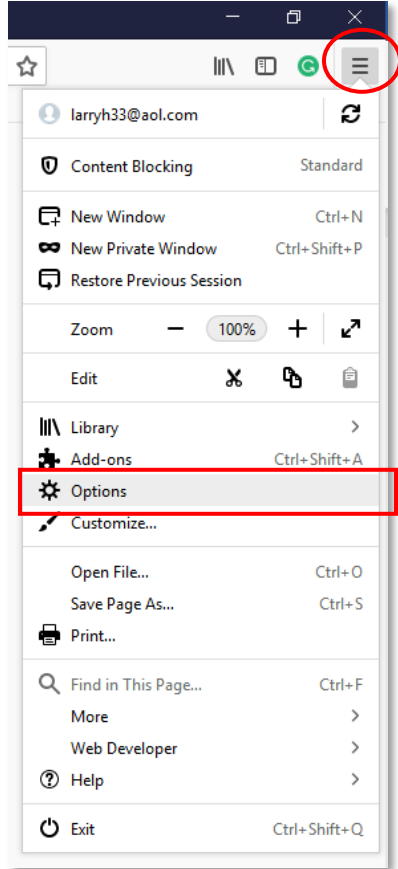

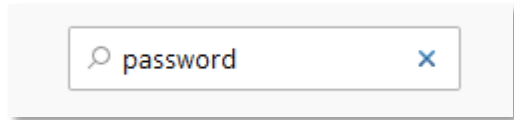

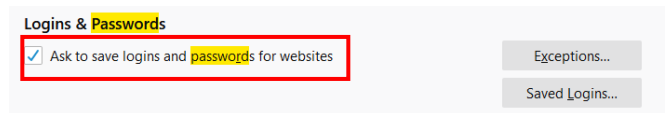

1. Open Google Chrome.	
2. Click on the main menu at the top-right corner and select **Settings** from it.	
3. Click on **Show advanced settings** at the bottom and then uncheck the option **"Offer" to save passwords with Google Smart Lock for Passwords"** under the **Passwords and forms** section.	

| |
|---|
| 4. This change will stop chrome from prompting you to save passwords every time you log in to a website. If you want to delete previously saved passwords, then click on the **Manage passwords** link next to it. |

5. A window will open where you can see all your saved passwords. Just click the **cross** (X) button next to each entry to remove it.
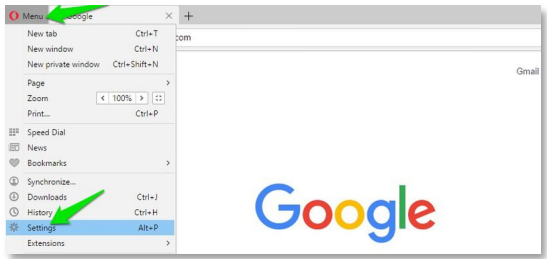

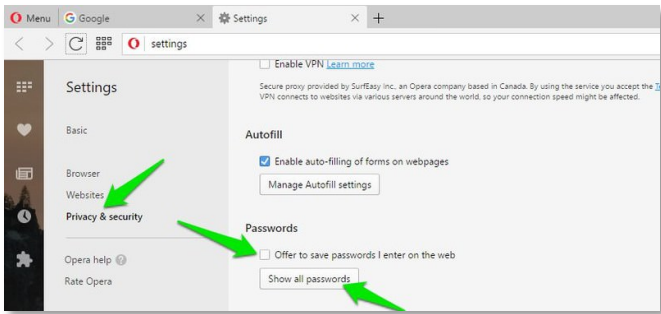

- **Firefox:**

1. Open Mozilla Firefox.	
2. Click on the hamburger menu at the top-right corner and select **Options** from it.	
3. Type in **password** in the search box in the upper right.	
4. Uncheck the box next to **Ask to save logins and passwords for websites.**

5. To delete previously saved passwords, click on the **Saved Logins** button on the same page. Here you can remove saved passwords.

o **Opera:**

1. Open Opera.	
2. Open Opera main menu from the top-left corner and select **Settings** from it.	
3. Here move to the **Privacy & security** section from the left menu and uncheck the option **"Offer to save passwords I enter on the web."**	
4. To manage the passwords, click on the **Show all passwords** button below it. You can click on the **cross** (X) next to each saved password to remove it.
