» **What is the scale for grading users on? What points correspond to what status (good, bad, etc.)? (Coaches & Super Coaches)**

> Coach Approval Points are awarded by the coach after listening to the completed recording. Based on how well the coach feels the user did they can assign between **0 – 10 points**. The points awarded will then automatically fill in the Remark. These are the defaults that Success Sciences sets as the grading scale. Company admins may change the scale based on their needs. These points are added to a user's total points for Play to Win.

> **0 – 1 – Poor**
> **2 – 3 – Below Average**
> **4 – 5 – Average**
> **6 – 8 – Good**
> **9 – 10 – Excellent**

> Super Coaches and coaches can add bonus points if they want as well.
